

Dear Iskomunidad Community,

To better serve you, we will upgrading Iskomunidad on March 29, 2021. During this time, Iskomunidad will not be accessible. It will be available again on March 30, 2021.

Please note of the following changes in the upgraded version:

1. Unsupported plugins or extensions will be removed. This could affect the design of your wiki pages. The following are tags of the extensions or plugins that will no longer work in the upgraded version of Iskomunidad.

Tags	Used for
<code><epdf></epdf></code>	For embedding epub (Encapsulated Portable Document Format).
<code><mediaplayer></code> , <code><player></code> , <code><mp3player></code>	For embedding video and audio files.
<code><pdf></pdf></code>	For embedding pdf files.
<code><videoflash></videoflash></code>	For embedding videos.
<code>{{#widget:Google Books id= height=600 width=800 }}</code>	For embedding google books.

Here is a list of the supported and available alternatives to the removed extensions or plugins:

Tags	Used for
<code><iframe frameborder="0" width="600" height="500" src=""></iframe></code>	For embedding video, audio and pdf files.
<code><embed></embed></code>	For embedding pdf files.
<code><youtube width="200" height="120">ZuBahyyyPIY</youtube></code>	For embedding youtube videos.

Click this link for the example of using these tags [click this link](#).

2. Because Flash is no longer supported since 2020, all the Flash (.swf) files in Flipbook are no longer viewable (?) Our team is still exploring alternatives to Flipbook.

We apologize for any inconvenience these may have caused. If you have any questions or concerns, please contact us through our Helpdesk:
<https://helpdesk.ilc.upd.edu.ph/open.php>.

Thank you for your continuous support!
