**Technology Enhanced
Personalised Learning**

Good day,

We are a research group conducting research under the ASEAN University Network - Technology Enhanced Personalized Learning. We are conducting a survey on the impacts and effects of AI on education pedagogies, personalized learning, curriculum planning and student assessments. We are inviting all faculty members to share their own individual perspectives on AI in education. Additional details and the ERB approval links can be found in the survey.

The survey can be accessed through this link or through the QR code below.

For questions, kindly email the project leader at mmremolona@up.edu.ph.

Thank you for your time.

Regards,

Miguel Francisco M. Remolona
